

## DATASHEET

# Zearalenone Mouse Monoclonal Antibody(C2451)

CAT. NO. AMA02063

### KEY FEATURES

Target	Zearalenone	Source / Host	Mouse
Reactivity		Clonality	Monoclonal
Applications	ELISA	Conjugation	Unconjugated
Form / Buffer	Liquid in 0.01M Phosphate Buffered Saline, pH 7.2, 50% glycerol, 0.05% Sodium Azide.	Storage	at-20°C

### BACKGROUND

Zearalenone (ZEN) is a non-steroidal estrogenic mycotoxin produced by several *Fusarium* species, primarily contaminating maize, wheat, and other cereals. ZEN binds estrogen receptors and causes hyperestrogenism and reproductive disorders in livestock. Anti-zearalenone antibodies are used in ELISA, lateral flow, and immunoaffinity columns for food and feed safety screening.

### APPLICATION

To ensure optimal assay performance, AREX recommends conducting reagent titration tailored to each testing system for optimal detection results.

ELISA	Use at an assay dependent dilution.
-------	-------------------------------------

\*Results are sample-specific. Please refer to your local assay conditions and test parameters for reference.

### PRODUCT OVERVIEW

Description	Mouse monoclonal antibody to Zearalenone
Specificity	Reacts only with Zearalenone.
Antibody Type	Primary antibody
Immunogen	Zearalenone conjugated to KLH
Purification	Protein G purified
Form/Buffer	Liquid in 0.01M Phosphate Buffered Saline, pH 7.2, 50% glycerol, 0.05% Sodium Azide.

\*AREX continuously optimizes our products. Webpage content may not reflect the latest updates. For inquiries, please contact [info@arexbio.com](mailto:info@arexbio.com) or your local distributor.

\*Clone Number, Reactivity, Source/Host and Clonality can be found in the product name and Key Features section above.

**DATASHEET**

**Zearalenone Mouse Monoclonal Antibody(C2451)**

CAT. NO. AMA02063

**| DATA**

**| STORAGE**

Store at 4°C short term. For long term storage, store at -20°C, avoiding freeze/thaw cycles.

**| NOTE**

For Research Use Only. Not for diagnostic, therapeutics, prophylactic or in vivo use.
